Sun and Oracle need to compete fairly with Microsoft in the market place  
not in the courts -

anti-trust doesn't apply when there is no way to put a price tag on  
creativity and entrepreneurship -

Let the customers be the judge and the jury -

We know how to make our decision -

These 9 states should not be granted a license to sue - Let them all  
create competitively and we be the judge and jury and decide -
